## Welcome to JobStart!

JobStart is unique and innovative. It's an opportunity for job seekers to practice self discovery while our employment team can access abilities and aptitudes to determine their job suitability. Through a series of 4-6 week employment readiness workshops designed for persons with disabilities, the various job readiness skills are explored:

- Resume writing
- Interviewing
- Communication
- Conflict resolution
- Problem solving
- Interpersonal skills

JobStart begins with a short interview to determine the job seekers educational and employment history. The only prerequisite job seekers required for JobStart is that they have a true desire to find employment. It is up to the employment team to assist the job seeker in gaining the tools to help job seekers develop their skills and achieve their goals.

Employment Readiness Workshops for People with Disabilities

Delivered by:

## Inspiring Possibilities

- JobStart is a unique and innovative assessment tool that allows job seekers to practice self discovery while assessing any barriers to employment. It is a process that explores and develops various job readiness skills.
- Often employers can find themselves with high turnover positions, this is not only frustrating but also costly.

JobStart offers individualized job
coaching to job seekers. Our employment
team will work with the employer and
job seeker to address any concerns
or possible barriers and provide
onsite training.

3 There are many ways employers will benefit from hiring our job seekers that have completed the JobStart program. Our employment team

strives to meet employer needs, to ensure the right "fit". Often our job seekers leave JobStart with training certificates for:

- Safe food handling
- WHIMIS
- First Aid and CPR
   For more information please contact our employment team.
