**Subject:** Update on COVID-19 Positive Outbreak locations.

Board members,

I will be keeping you updated as soon I can when I get information from Janice A/ED. As you can imagine, she as well the senior and leadership teams are extremely busy in dealing with the issues. Please continue if you need clarification or have questions, to route them through me, or Mac in my absence. If for some reason I cannot be available I will inform Janice and Mac.

My updates from now on will concern only the "outbreak" locations positive test results ( for now Kildeer, Holcan, and 425 Adelaide). The other locations with negative and pending tests results, will be covered in the next regular board report and tracking template.

### **Kildeer:**

4 clients: positive in isolation

7 staff: positive in isolation

2 staff: Waiting for results (initial tests lost by hospital - Public Health investigating, pending possible further tests)

### **Holcan :**

1 client: waiting for results

1 staff : positive (involved in cross-over to 425 Adelaide)

1 staff : negative

1 staff : waiting for test results

EMS are going to test the remaining client and some staff

### **425 Adelaide :**

1 client: positive: hospitalized, intubated on respirator Dec. 25, waiting for information on condition

1 client: positive in isolation

1 client: no test hospitalised with symptoms and returned home. Dr. refused to test, assumed COVID due to outbreak.

1 staff: positive in isolation

EMS are going to test the remaining client and some staff

Staffing at this time is stable with no issues experienced at these locations.

regards,

JC Legault  
President
