Subject: COVID-19 Board Report and Testing Tracking October 9 meeting
Attachments: covid board report October 9 2020.pdf; Copy of Covid presumptive or positive tracking October 9 2020 .xlsx

Board Members,

Attached is the latest COVID-19 CLOC Board Report, and Testing Tracking Report from our October 9th meeting.

The items highlighted yellow in the Tracking Report are those different from 2 weeks ago.

Unless you the Board Members would prefer that we return to "weekly reports", we will continue this bi-weekly report as we have adapted for the summer period. Please advise us what you would prefer.

It is encouraging and a good reflection on the management of COVID-19 prevention by CLOC operations, that regardless of the increase in the need for precautionary and symptomatic testing, there has been no increase in the number of COVID-19 positive tests since very early in the pandemic period.

Best regards,

JC legault
Terri Gray
